Objective:

As an aspiring developer actively seeking full-time employment, I am driven to further develop my skills and expertise in software development. With a strong commitment to excellence, I am a proactive self-starter and quick learner, continuously seeking out new challenges to expand my knowledge. I am eager to join a dynamic team where I can contribute my skills, collaborate on innovative solutions, and advance my career in development.

Education

Seneca College

August 2023-November 2023

- Advanced Diploma in Computer Programming and Analysis
-

Skills:

Programming Languages	JavaScript, Python, C/C++, Java
Web Development	HTML, CSS, Tailwind, Bootstrap, UI, RESTful API, JSON, AJAX, SEO
Frameworks	Nodejs, Express, Next React, Next-Auth
Database	MongoDB, SQL, PL/SQL ,No-SQL ,Prism ORM
Cloud	AWS, CI/CD, Containerization, Docker, Microservice, Testing, Automation
Software Essential	OOP, Data Structure, GIT, GitHub, Visual Studio, MVC, SDLC, Agile

Work Experience

Maydaysec

August 2023- November 2023

- Developed coupon verification system in PHP, enhancing discount management efficiency.
- Collaborated on the design and implementation of a secure coupon verification system, reducing fraud.
- Conducted testing and debugging to ensure system functionality and reliability.
- Assisted in documentation and presentation for internal use.
- Provided technical support during system implementation.

Projects

Meal Kit Website (bit.ly/3y9o3GJ)

- Full-stack meal kit website built using Node.js, Express.js, and MongoDB.

- Utilized bcrypt.js to implement secure user authentication, ensuring password hashing for enhanced security..
- Enabled users to manage shopping cart items with add, edit, and delete functionalities.
- Utilized Bootstrap for a responsive and visually appealing user interface (UI).
- Demonstrated problem-solving skills and attention to detail for a seamless user experience.

Art Search Website (<https://bit.ly/4dsuZif>)

- Developed an Art Search website using Next.js for the front end, providing a fast and efficient user experience.
- Utilized Jotai for state management, improving the scalability and maintainability of the application.
- Implemented user authentication with JWT for secure access to personalized features.
- Enabled users to save favorite art pieces and maintain a browsing history with the ability to edit records.
- Leveraged Node.js and Express for backend development, storing user data securely.
- Utilized bcrypt.js to implement secure user authentication, ensuring password hashing for enhanced security.

Portfolio (<https://bit.ly/3QzevLg>, username-nwadhwa2, password-Hakaishin@1 for CURD operations access)

- Developed a full-stack web application using Next.js, Express, and Node.js.
- Utilized MongoDB for database management.
- Implemented role-based authentication for secure user access.
- Integrated CRUD (Create, Read, Update, Delete) operations for administrators.
- Implemented OTP (One-Time Password) verification for enhanced security.
- Leveraged Next.js for server-side rendering and optimized performance.
- Ensured RESTful API design for seamless communication between frontend and backend.

Other work Experience

Executek International

Customer Service Representative (Security Focus)

- Managed a team of three individuals, ensuring excellent customer service delivery.
- Handled customer inquiries, complaints, and feedback, ensuring high levels of customer satisfaction.
- Provided guidance and support to team members, fostering a positive work environment and adherence to company policies.
- Established effective communication channels between management, staff, and customers.
- Collaborated with various departments to address customer needs and resolve issues promptly.
- Assisted with administrative tasks such as record-keeping, report generation, and inventory management, ensuring operational efficiency.
